Dear parents and caregivers,

At present we have experienced growth in our schools student numbers and due to this we are looking at employing an additional teacher for Term 3 and 4 this year. The Ministry have guaranteed our teacher numbers until the end of the school year but I am unsure at present if these numbers will in fact lead to a full-time teacher for next year. I personally am hoping that we have passed the 'magic number' to have 7 full-time classrooms for the next school year and if this is the case all our classes will certainly have lower numbers. I have advertised the position in the latest Gazette so am hoping that we will have suitable applicants apply. Depending on the person/s who apply, will depend on the exact makeup of the class/es for the rest of the school year. Please be assured that the decision/s that are made will be in the best interests of education for the students involved.

We are entering the last part of 10 year funding from the Ministry and the Board, along with the staff, have looked at the best way in which we can move the school forward. We are planning to alter the space between Room 4 and 5 so that there are glass bi-folding doors that can be opened up and allow more room for both of the classes. Looking forward to the possibility of having 7 classes, we are turning the largest room in the school, the library, back into a classroom. This way we do have another full-time classroom for next term/next year. Due to this we are looking at redeveloping The Hub into the Library. With careful positioning of shelves and utilising the space that we have there this will be a more efficient use of space.

Within the next 7 - 10 months the Board and Teachers will be developing the next 5/10 year plan for the buildings. This will then go to the Ministry for approval and we will continue the development of our school into a learning environment for our children.

Thanks

# Jetty Story

*Leaping into the fresh air, sounds of birds chirping awake my eardrums. My eyes gaze into the far distance, seeing unique shades of blue fill the sky.*

*Suddenly my nose tingles as the alpine air drifts past me. I see forest green pine trees reflecting onto the glistening blue water.*

***SPLASH!** I hit the water as if I was an elephant. Freezing cold water flows down my throat like a waterfall. "I can't believe I did it" I think to myself. Suddenly a chill wriggles down my spine like a worm and I wonder if I am brave enough to do it again.*

*By Sienna Wright*

I can feel the burning sun roasting on my bare back.

I can feel a hot breeze blowing against my face.

I can hear the sizzling of the tasty sausages on the barbecue.

I can hear boats zooming past the yellow buoy flopping in the water.

The smell of the pine tree forest takes away the cooking on the barbecue.

I can smell fumes from boats revving up their powerful horsepower motors.

I can taste the clear fresh water as I finally leap off the unstable jetty.

The taste of the chocolate chip cookies I had for morning tea are bursting back out of my mouth.

As I approach the jetty, I wonder if the burning hot wood will light my feet on fire.

As I jump off the jetty, I wonder if the water will freeze my body.

# JETTY STORY

*Charging along the wooden jetty, my feet burn with the morning sun blazing onto the wood. Across the sparkling lake I could see the bushy pine trees reflecting onto the shimmering water. Hearing the birds singing and boats roaring, the fresh mountain odour of the of the pines crawls up my nose. Reaching the end of the boiling jetty, I stretch out my limbs and with a crack like thunder, I hit the water, instantly tasting cold fresh mountain water.*

*When I surfaced the sun blazed down like a burning hot bonfire once more.*
